Serenity Filters Explained

4520035 — The Wave Filter introduced with the 2019 Serenity.

The wave filter is no longer used and is replaced with 4520036

4520036 — The round filter was introduced with the adapter 5005045  in 2020

The adapter was made a permanent production piece as of the 2021. This filter is still available and can ordered and used when there are no issues with the filters in the tub.

4520020 — The threaded filter introduced for use on the Serenity line in 2021

The adapter 5555231  is required for retrofit on tubs made before Mar 15, 2021

They are tubs made with the “cone” fitting for filters. 

The adapter 5555230  is required for retrofit on tubs made after Mar 15, 2021

They are tubs made with an “adapter” fitting. 

As of 2022 production, all tubs are now made with a threaded fitting and this filter can be ordered as a replacement as required without having to order an additional threaded fitting.

Thank you,
